

# WHAT IS A CSB?

*Concerning sexual behaviour is a behaviour problem not a sexual problem*

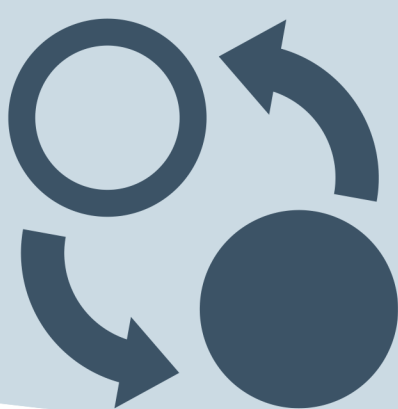

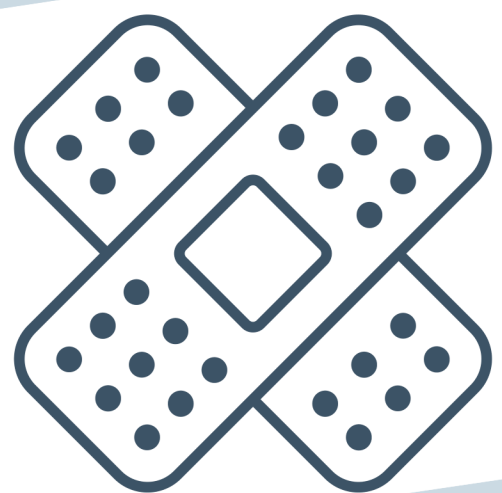

**1. THERE IS A CHILD UNDER 12 YEARS**

**2. THAT CHILD STARTED BEHAVIOURS OR ACTIONS THAT INVOLVE SEXUAL BODY PARTS**

**3. THAT BEHAVIOUR IS NOT REGULAR FOR THEIR AGE OR DEVELOPMENTAL STAGE**

**4. THE BEHAVIOUR CAN POTENTIALLY CAUSE HARM TO THEMSELVES OR OTHERS**

**5. THE BEHAVIOURS MAY OR MAY NOT BE RELATED TO SEXUAL STIMULATION**

*The behaviours may be related to curiosity, anxiety, imitation, attachment-seeking, self-soothing/calming*

*~ Source: Silovsky & Bonner, 2003*
